**MURDEROUS PLOTS ARRESTED.**  
SOFIA, July 25.—It is learned that the object of the plot which was discovered at Rostchuk was to murder Prince Ferdinand. Two of the ring-leaders, Boystof and Ivanoff have been arrested.

**ANOTHER BIG RAFT LAUNCHED.**  
JOGGINS, Nova Scotia, July 25.—The big raft was launched successfully yesterday at Two Rivers in the presence of 1,000 people. The construction of the monster was begun on February 20. It is 308 feet long, 52 feet wide, and 35 feet in diameter, tapering to 10 feet at the ends. It contains 22,000 pieces of timber, 1,000,000 feet of lumber, making more than 2,000,000 feet superficial. It is the largest structure ever launched.

**AN UNFOUNDED REPORT.**

MONTREAL, Quebec, July 25.—The statement contained in a telegram received from Three Rivers on the 20th inst., to the effect that fourteen men had been drowned in the rapids of the Mattawan River, about fifty miles above Three Rivers, proves, upon investigation, to have been entirely without foundation.

**REAL ESTATE.**

The Hot Weather Causes a Dullness in the Market-Sales.

All the agents anticipate a very tame market, with an exceptional spurt from now on to the 1st of September, and they are prepared to meet the dull season. Nevertheless a few of them continue in their efforts to consummate transactions in the face of hot weather and adverse circumstances resulting from the absence from the city of a great many large property-owners and less enterprising salesmen who may be engaged in such enterprising salesmen who may continue to keep up the effort in defiance of the odds against them will doubtless control the market during the reading about real estate matters heavy as much a subject may be, especially in the days.

**IMPROVING THE BENTON PARK DISTRICT.**  
Two blocks of ground, known as English Camp property, immediately opposite Benton Park and facing Wisconsin avenue and Wyoming street, are being subdivided and improved on quite an extensive scale, preparatory to sale to the public. According to this property affords no evidence of improvements to the casual observer its subterranean caverns have enriched the owners with immense crops of fine mussels for many years past. It is proposed that this course of revenue shall not be disturbed in any way.

**SALES.**

The sale of a number of farms five miles southwest of Carondelet at \$40 an acre is reported from Elizabeth Davis to R. H. Hathaway of Mayville, Ill., by Coblentz & Co.

The Gossard residence, West property at Third and Barton, was bought in yesterday at Sheriff's sale by the Bank of Commerce to satisfy a judgment of about \$17,000. Originally the property cost about \$40,000. A lot of \$2,125 was paid for it. The house, which belonged to the same firm, was purchased by the Schultz Belting Co. at \$33.25 a foot.

**DR. STAPP DISMISSED.**

Another Charge Against an 80-Year-Old Physician Dropped.

The charge of criminal malpractice against Dr. Stapp, which had been pending in the Court of Criminal Correction for months, was dismissed for want of prosecution to-day. There had been several continuances of the case and the prosecuting witness, Annie Cowan, now Mrs. Stapp, did not put in an appearance either at the last calling of the grand jury or at the day when the case was dismissed. Annie Stapp, a young girl of poor parents, was ruined by an insured clerk named Gilbert Cowan. She swore out a warrant against him, and he was arrested but agreed to name the girl if no warrant was withdrawn. It was withdrawn and the marriage took place. In her statement to Assistant Prosecutor, Attorney Doherty, she said Cowan had induced her to go to Dr. Stapp. In the meantime Cowan skipped off out of the city, and the jury returned a verdict holding Dr. Stapp responsible for the injury he had done to the plaintiff before and after the fact. Dr. Stapp, who is about 80 years of age, and has been under arrest a number of times for the same offense, was released on a warrant issued against him. The alleged crime happened in March 28, 1888, and the warrant was issued in April. The case has been pending ever since.

**A FIENDISH DEED.**

The Attempted Poisoning of a Family Living at Spalding Spring, Mo.

By Telegraph to the Post-DISPATCH.  
HANNIBAL, Mo., July 25.—News has just reached this city to the effect that a cowardly attempt was made to poison the family of Peter Shultz, living in the vicinity of Spalding Springs, a small summer resort near Hannibal. Mr. Shultz discovered that the house dog was violently sick and vomiting some green substance. Upon investigation he found a piece of ham meat on the ground, of which the dog had eaten about one pound. The meat was found to be covered with arsenic. There were several other pieces in the smoke-hearth whence the dog had stolen the ham. If the dog's illness and the case of the same had not been discovered, the meat would have been cooked for dinner, when two or three persons would have eaten it, and several deaths would probably have ensued. The theory advanced is that the meat was stolen out of the smoke-hearth, and the thoroughly poisoned was returned to its place. Circumstances prevail in the neighborhood of the happening.

Doings in the Courts.

The N. O. Nelson Manufacturing Co. filed a suit in the Circuit Court this morning against J. F. Killorin, to recover the amounts alleged by defendant on twenty-two promissory notes dated June 5, 1888, twenty of the notes of the value of \$25 each and two of the value of \$20.75 each. These notes, according to the petition, bear an interest at 6 per cent per year, were respectively due on the 5th of each month after date, the only sum paid plaintiff, however, being \$28.30 on the first note due.

The suit of Fritz Hugo was admitted to prove this morning. Frederike Hingo being appointed executrix without bond, as wife of the deceased, being left the estate, valued at \$7,500, Hingo's former husband left \$5 each.

The S. S. Co. of Picton, Ont., were given permission to increase its capital stock from \$1,000 to \$30,000, the assets being placed at \$31,000 and the liabilities at \$12,500.

**Accused of Embezzlement.**

A warrant is to be issued this afternoon against Caspar Conrad of No. 1821 South Seventh street, charging him with embezzling a certificate of deposit of \$50 belonging to the Bakers' Union. The information was drawn up by S. A. Bass, attorney for the union, and is to be given over to the members of the organization. Conrad gave his certificate of deposit while he was a trustee of the union, and although no longer a member, he is said, still retains it, to the date he paid into the organization, and will hold the certificate until the money is refunded to him. He has been accused of numerous times to surrender the certificate, but has always refused.

**Court of Criminal Correction.**

Jennie Hines had a preliminary examination before Acting Judge Paxson in the Court of Criminal Correction to-day and was held for the Grand Jury in \$500 bond to answer to a charge of assaulting to kill James Fitzgerald. James Fitzgerald went to the Work-house for two months for stealing \$7.50 from Lizzie Fisher.

The cases of Harry Cain, Jack and William Peterson, charged with assault to kill, and J. Neutz, with assault and battery, were dismissed for want of prosecution.

A notice pro se was entered in the charge of petit larceny against James Carroll.

## BAGGED BY BONFIELD.

### THE MAN WHO SUPPLIED HRONEK'S GANG WITH DYNAMITE

**Arrest, Early This Morning, of Rudolph Sevic, Bohemian Gunsmith—The Pioneer Regarded as the Most Dangerous of the Conspirators—All the Accused Before the Grand-Jury.**

CHICAGO, Ill., July 25.—The dragnet of the law enmeshed to-day another of the Anarchists who sought revenge upon the representatives of the law in the persons of Bonfield, Gary and Grinnell. A gunsmith, named Rudolph Sevic, was arrested before daylight this morning, and is now behind prison bars under bonds of \$7,000. He is charged with being the individual who furnished dynamite to the conspirators who intended to assassinate the three law officers most prominent in the Haymarket prosecution. It is acknowledged that he is a "honest" fellow, a blacksmith by trade, dealing in dynamite and that he sold over fifty pounds of the explosive to various persons within a year. He will only admit having sold ten pounds to Charles Hroncek, whom he cannot remember who they were. Inspector Bonfield says he has proof that the ten pounds, if not more, went to Hroncek, and that he is a "honest" fellow. It is initially known that Sevic bought on May 26 from the American Powder Co., in Chicago, twenty-five pounds of dynamite. He is a son of ten pounds of the powder that he sold to the conspirators arrested trio of assassins. Sevic claims ten pounds of the twenty-five went to a farmer in Nebraska. On the 2d of June he purchased twenty pounds of dynamite from the same source, claiming he sold it to a farmer in Minnesota, but is unable to give his name or to locate him. Inspector Bonfield is positive that Sevic was in league with the conspirators, who also used his services to destroy Grinnell and Gary.

Sevic is a Bohemian, 25 years of age, and of medium size. He understands and speaks but little English. Inspector Bonfield last night also captured several infernal machines. They are zinc, 4 $\frac{1}{2}$  or 5 inches in height, cylinders shape, 3 $\frac{1}{2}$  inches in diameter, and are of equal height about an inch in diameter. These inside cylinders are filled with dynamite and between them and the outside covering are broken iron. It is noted that the lead shot and broken iron. In the tops of the inside cylinders fulminating caps are placed with fuses attached. Inspector Bonfield will not say what kind of these machines were found in Sevic's house.

Sevic's arrest was kept secret until the moment when he was arraigned in court this morning. Meantime he had been subjected to vigorous cross-examination by Inspector Bonfield. The proceedings in court occupied but a few moments and consisted of simply putting the case on record and fixing a date for trial. It was agreed that the grand-jury would make further proceedings for a week. The grand-jury, already impaneled to take up the case of Sevic's alleged co-conspirators, will not say what kind of these machines were found in Sevic's house.

The police are doubtful that the discovery of the bombs will not be followed by a vigorous search for the assassin. Inspector Bonfield says he has proof that the ten pounds of dynamite he sold to a farmer in Nebraska were used to destroy Grinnell and Gary.

WASHINGTON, D. C., July 25.—The House Committee on Commerce has directed a favorable report upon the Senate bill to amend the interstate commerce law. The Senate.

WASHINGTON, D. C., July 25.—Mr. Culom offered a preamble and resolution rectifying published statements of the Canadian Pacific Railway, South Shore & Atlantic Railway, and the Duluth, Superior and Mississippi Railroad, that the Canadian Pacific Railway Co.; that those two roads, in their opinion, had the right to bridge over the St. Mary's River on the boundary line between the United States and Canada, that the ownership of that bridge is with the Canadian Pacific, and that by virtue of this monopoly of the Canadian Pacific (operated in the interest of a foreign Government) is able to ignore and defeat the operations of the St. Louis & San Francisco railroad; and directing the Committee on Commerce to inquire into these matters.

Mr. Morgan asked that the resolution go over to the Senate to afford time to offer an amendment to it. So ordered.

The Senate then reconsidered the naval appropriation bill, the pending question being on the amendment striking out the section relating to the expense of a commission to locate a navy-yard and dock on the Gulf Coast.

Golden Era was somewhat stronger than it was yesterday. Several shareholders asserted that the report that the mine owed \$2,100 had arisen from a faulty system of book-keeping and that the actual debt had at no time exceeded \$2,000. Two car loads were shipped from the mine on Monday, which it is hoped will entirely wipe out the indebtedness. The stock market was quiet, with a slight drop in price.

## A FAMILY REUNION.

THE WELL-KNOWN OLD-TIMERS WHO FACED JUDGE CADY TO-DAY.

Pete Mullery and His Pitiful Petition Written on a Tobacco Bag—Crazy Ward Gives a Performance—A Great Day for "Stay" in the Felony Court—The Cases Disposed Of.

There was a sort of family reunion in Judge Cady's court this morning. Pete Mullery, Tom Hathaway, Jr., "Crazy" Ward and Mary Walsh, four veterans who have been up so often that their lives have become part of the court's history, were all on hand, their four names being in a row in the docket.

MULLERY'S PLEA.

Mullery is a son of John Mullery, the well-known blacksmith, and from the time Pete has been of age he has lived almost constantly at the Work-house. He never does anything but get drunk, but he does that constantly. As soon as he gets out of the Work-house he gets drunk and is sent down again. Yesterday he was released, and this morning he was before Judge Cady on the old charge. Pete wrote the following note to City Attorney Butler in a fine-cut tobacco bag made of paper:

**FRIEND JIMMY**—It appears that I am unfortunate, having only been released from the Work-house yesterday, to pay the price for the last time obtain for me a stay? and I promise you I will never ask you again. Be kind enough, just once, and I will ever remember your kindness. Yours, etc., PETE MULLERY.

The testimony against Peter was to the effect that he was very drunk last night and was cursing and swearing a great deal. The name was known to the court at the conclusion of its session, and Peter was brought forth.

"Only let me go this time, your Honor, and I will not be at the Work-house again," said Peter. The court adjourned.

"Yes," said the court, "I suppose you think you ought to be given more time to get drunk."

"No, Your Honor, I want to do something. I will do anything. I don't care what it is."

"No judge, I give up. I must do it. I will even drive steam."

"All right, Pete, I will give you another chance, and when you stay during good behavior, if you ever come back again, however, it will go hard with you. This execution will be issued to you in addition to whatever is then imposed."

TOM HATHAWAY.

The next man to come up after court was Thomas Hathaway, Jr., the talented son of ex-State Senator Hathaway. Instead of remaining at the Work-house he got drunk, and young Hathaway had some or more different ways of violating the law. The charge against him this morning was disturbance of the peace. It appeared that he attempted to enter a disreputable house on Pine street at the same time. Hathaway objected to the negro's company and struck him in the nose. The negro attempted to draw a knife, but Hathaway struck him and then ran off. On his solemn promise that he would act properly in future he was granted a stay on good behavior.

FRANCIS CADY.

But it was when Frank Ward, known all over the city as "Crazy" Ward, came before Judge Cady after court that the spectators were given a treat. Ward was in most respects blind and unable from one side to another with the ability of a sparrow hopping from twig to twig. He was arrested last night on Broadway and Locust streets for being drunk and disorderly. He was taken to the Workhouse and fined \$10. When brought before Judge Cady after adjournment Ward, by a herculean effort, brought forth a few light tears. "Let me go, Judge," he pleaded. "I am for my mother, and my father are both dead, and I have no one to take care of me. That man there, Judge, can tell what I did at the Southern Hotel fire where many lives were lost. Judge, save the lives of two men at the Lindell Hotel and they offered me 25 cents apiece. But I spurned to accept money. Your Honor, for saving human life, and for saving the lives of two men, I will give you 25 cents apiece." The official plan to designate the streets was adopted at the Council meeting yesterday.

Miss Anna Bell Vaughan gone on a vacation to Mattoon, Ill., and to Indianapolis, Ind.

Mr. Hugh McNulty, who lived near Pittsburg station, died this morning and will be buried from his late residence to-morrow. The funeral services will be held at St. Patrick's Church, and the body will be conveyed to St. Henry's Cemetery. His wife, Mrs. Hugh McNulty, a resident of Rolla, Mo., was a widow, and she had a son, a daughter, and a son-in-law.

"Why, Ward, you can't paint anything except the town," remarked the court.

"Indeed I can, Your Honor. I can paint anything. That man over there can tell you."

Ward was granted a stay and went on his way rejoicing.

ANOTHER STAY.

Judge Cady completed the day's charity by granting a stay to the veteran Mary Walsh, who had been held in custody.

OTHER CASES.

Annie Thiesen, a disreputable character, was fined \$5 for slugging her husband William Hart, who had been brutally beaten eight days ago.

After court he went to the police for release, but was told she would have to pay her fine or go to the Work-house.

Harry Winger, 19, was arrested by Police Young and Omes Dotson for being drunk at a disreputable house on Clark avenue, and was fined \$10 for trespassing. He had his possession of many obscene diagrams of the different styles of safes and directions for blowing them. It told where to use the Jimmy, where to place the powder and in what particular for doing the work.

The police kept the manufacturer and expect to arrest some confederates of Livingstone.

A number of drivers of wagons employed on the grading have done their work in this place, near Grove Park, were before Judge Cady this morning for driving galled horses. The horses had galled necks and were being worked at St. Louis, and was fined \$10. John Hendry \$2, and Wm. Speth and G. H. Taylor costs each. The two former own their horses, while the other two are merely drivers.

Used Rope and Pistol.

To Telegraph to the Post-Dispatch.

FAIRMOOR, Ill., July 25.—John Clark, a married man living in Indianapolis County, made two desperate attempts at suicide this morning. He was first discovered by his wife, who a rope adjusted around his neck which she was wearing from a necklace. He immediately seized a revolver and made another attempt at suicide, which his wife also prevented by grabbing the revolver just as it was discharged. She was holding Clark's right hip. He will probably recover.

President Allen of the Council Told Mayor Francis That He Thought He Was Doing Him a Favor—The Mayor Refuses to Recognize the Obligation and Is Examining Into His Powers—A Reported Fight Between President Allen and Committee-man Carroll—Prospects for a Lively Meeting of the Central Committee—Ward Gardens—Political Notes.

The first witness to take the chair was E. L. Boas, passenger agent of the Hamburg line of steamship companies. He said that his company transacted its passenger business in which his company had three thousand agents in this country. About 75 per cent of these agents were prepared passage tickets sold to friends and relatives for people in Europe. In New York the company has about seventy-five agents, all paid commissions, and they sell tickets to passengers in Europe to any point in that country. About one-third of the immigrants bought their tickets here in New York and the balance go to points farther west. Every man who buys a ticket has to present a passport showing that he is allowed to enter and that he has no criminal record.

The company, he said, takes great pains to inspect all passengers in order that none shall come over who would not be allowed to land here.

The witness never knew of tickets being sold to any one by any of the companies. He said that his company had no record of any one ever sold to any one person. About 75 per cent of the passengers brought here by his line of steamers are immigrants, mostly from Italy and Sicily. The company's agents sell tickets from point to point in Europe to any point in this country. The company, he said, takes great pains to inspect all passengers in order that none shall come over who would not be allowed to land here.

The testimony was closed by each of the commissioners on the passport question, and acknowledged that the principal point dwelt on in the document was that of military service. He said that all the steamship lines held a conference periodically and that one of the rules of the conference was that no agent should be allowed to sell tickets to any one who was not entitled to do so.

Mr. Boas said that most of the Hungarian emigrants were common laborers; the Bohemians are about equal, and the Poles are almost to a unit common laborers. The Poles, he said, mostly go to Buffalo or Chicago.

Mr. Coffey was the second witness examined. He devoted special attention to the Mediterranean business done by his company.

Mr. Coffey stated that the following Italian emigrants had been brought here by his line of steamers: 1885, 1886, 1887, 1888; 1889; 1890.

The majority of prepaid tickets from Italy, he said, were sold by the Italian bankers here in New York. The Italian aviators buy a large number of old and used specimens. They issue their own tickets, which are sold in the form of orders on their agents in Italy and then when they have any kind of accident go to the Italian agents and make a handsome margin by picking up a tramp steamer at a low rate. Mr. Coffey thought fully 90 per cent of the prepaid Italian tickets were sold by these Italian bankers.

WEDNESDAY, JULY 25, 1883.

The indications for thirty-six hours, commencing at 3 p.m. to-day, for Missouri are: Local rains; slightly warmer, followed Thursday by fair weather and stationary temperature.

THE POLL-BOOK contest seems to have settled down squarely to a question of fair or dishonest primaries.

EMPLOYEES in the City Hall should prepare for sudden changes in the temperature. The two Mayors may meet at any time.

A REPUBLICAN paper suggests that thirteen—the number of the majority for the Mills bill—is a fatal number. Its fatality will undoubtedly be experienced by the Republican party this year.

THE members of the Municipal Assembly are reported as being happy over their release from legislative duties for the summer. It may add to their pleasure to know that the citizens of St. Louis heartily share in their joy.

In the latest reports from abroad are to be trusted poor little Prince FERNAND, who was rapidly sinking into oblivion on the Bulgarian throne, is to be deposed. Russia and Germany are said to have agreed to oust him and that settles it.

THE country awaits with anxiety the expected attempt of Republican Senators to embody tariff reform and the prohibitory plants of the Chicago Convention in one bill. If they survive Gen. HARRISON may be induced to write a letter of acceptance.

INASMUCH as the Senate is certain to kill the Mills bill the American sheep need not prepare to disappear immediately in accordance with the sinister ramifications of the defenders of that infant industry of the patriarchs, wool growing. Their dire predictions are a case of "great cry and little wool."

SHOULD the war tariff remain unchanged the responsibility will rest on the Republican Senate. President CLEVELAND and his party can go into the campaign with a clear record on the political issue of the day. No amount of bluster and noise can keep out of sight that the next election will decide for or against tariff reform.

RECORDER WILLIAMS is quoted as saying that with the use of any other, except the corrected poll-books in his office, it would be possible to poll 10,000 fraudulent votes at the primary elections. This may have something to do with the persistent refusal of the Democratic City Committee to accept the Recorder's proposition for the use of the books.

HARD as is the condition of Cuba, there is nothing which the United States can do to help it. We have quite enough problems of our own to solve without undertaking this vexed and difficult problem of civilization in the tropics, and it would be folly to accept Cuba as a gift. Cuba in the hands of Spain and Canada under English rule are two great bulwarks and guarantees of peace, the inexpensive coasts defenses of our peaceful Republic.

THE holding of the convention of negroes to assert their independence of Republican partisan restraint in Indianapolis, the home of Gen. HARRISON,

is something of an affront to the Republican candidate. One of his most frequent arguments against the Democratic party is that it disfranchises the negro vote. He declares repeatedly that the success of Republicanism is necessary for the protection of the negro. And yet here is a large body of intelligent negroes resolving under his nose to support the party against which he asserts they need protection.

## LABOUCHERE'S LETTER.

QUEEN VICTORIA TO MAKE A PRIVATE VISIT  
TO THE GLASGOW EXHIBITION.

The Czar and Emperor William—Cost of Entertaining Royal Visitors—King Milan's Heavy Losses at Gambling—Suicides at Monte Carlo—The "Times" Farnell Letters—Irish Evictions.

Special Cablegram to the Post-Dispatch.

LONDON, July 25.—The Queen has decided to stay at Blythswood, Sir Archibald Campbell's place in Renfrewshire, for three days next month, so her Majesty, who will arrive there from Osborne early in the morning of Wednesday, August 23, will not leave for Balmoral till about 10 o'clock on the night of Friday, the 24th. The Queen intends to pay a state visit to Glasgow on the afternoon of the 23d, traveling by special train from Renfrew to St. Enoch's Station, Glasgow, where she will arrive at 4 o'clock, and the Lord Provost is to meet her there. Her Majesty will receive an address from the corporation at the Municipal Building after which she is to proceed to the exhibition where she will receive an address from the Convenors' Committee on the dais in the grand hall and then inspect some of the galleries. A visit is to be paid to Paisley on Thursday, the 23d, and on Friday morning the Queen will return to Glasgow for the purpose of paying a private visit to the exhibition.

THE Czar and Emperor William.

The Czar was probably glad that he was not obliged to receive Emperor William at his country seat, as special preparations would have been necessary for his reception, and the expenses of such visits are prodigious. It cost the Emperor of Austria \$120,000 to entertain the Czar for three days at Kremsier in 1883, and the bill for putting Archbishop Oimatz's palace in repair and for decorating and furnishing it for the occasion, amounted to nearly forty thousand pounds.

KING MILAN.

King Milan of Servia is a most despicable creature. Some years ago he went to Vienna for a brief stay, and the first miles of his visit he lost \$2,000 at a Nobles' club.

The money had to be paid within twenty-four hours, and as the amount was not within his reach, he went to the palaces and requested a loan from the Emperor, who gave him the money on condition he would not play again, and yet the very next night he was found at the table, and did not rise until another \$2,000 had gone.

No application could be made this time to the Emperor, so Milan raised the amount on a splendidly jeweled scimitar, his most valuable hereditary possession, which had been presented to the late Prince Milosch by Emperor Nicholas.

This scimitar has never been re-drawn and it is now in the possession of Herr Bleichroder, a Berlin banker.

SUICIDES AT MONTE CARLO.

A correspondent who really knows what he is writing about sends the following respecting the reported suicides at Monte Carlo. "I am very glad to see that you have taken the trouble to contradict some of the lies which are published in provincial papers concerning Monte Carlo. A few days after my return from there, last May, I was out driving in the midland counties, and a lady sitting next to me said: 'I see from the papers that there have been forty suicides this season at Monte Carlo. How on earth can you go to such a dreadful place?' You are quite right when you assert that there has not been a single case of suicide this season, but there has been one attempt, which happened as follows: A chemist's assistant from Nice lost, I think, a louse, and then went out of the room, sat down on a seat in the square facing the Casino, dramatically drew a revolver from his pocket, pointed at his left breast, then fell down and was immediately carried off by some gendarmes. A surgeon was sent for and the would be suicide was examined. There was not a scratch upon him, but a small bullet about the size of a pea was found sticking in his great coat. He was sent back to Nice by the next train, and was the following day waiting as usual behind the counter. The most revolting part of the whole thing was to see two men, I am glad to say not Englishmen, rubbing some money for luck against the supposed dead man's coat, he was being carried away."

THE SO-CALLED PARSELL LETTERS.

The story which is current to the effect that the so-called Parnell letters were found among Mr. Forster's papers and handed over to the Times by Mr. Arnold Forster, does not fit in with certain well-known facts of chronology. Mr. Forster ceased to be Chief Secretary on May 2, 1882. Lord Frederick Cavendish was murdered on May 6. The lithographed letter which the Times published last year bears the date of May 18. If this letter be genuine and was really found by the police, it would have been handed over to Sir George Trevelyan and not to Mr. Forster. Sir George Trevelyan, however, knows nothing about it.

What is the inference?

THE IRISH EVICTIONS.

The Irish evictions are evidently looked upon by some people as a sort of entertainment organized for their special amusement.

I observed at the storming of the house of Michael Clary, on the Vandoeuvre estate, a number of English and American visitors, including many ladies, were present. Now, I have no doubt that many of these people were genuine sympathizers with the tenants, but at the same time I strongly suspect that the majority of them belonged to that class of ghouls that rubies to Old Bailey to see a man tried for murder and revel in the sight of the black cap. The sufferings of the Irish tenantry are too real to be turned into a sort of a rare show for the gratification of gaping loafers.

THE Anarchists' Monument.

CHICAGO, Ill., July 25.—A temporary monument has been placed in the lot in Waldheim Cemetery, where lie the remains of the five Anarchists who met death for the Haymarket massacre. The stone, which is Italian marble, bears on its face the names of those buried below, together with the last words uttered by each. It is the intention to replace the stone by a massive monument as soon as possible. The Defense Committee is now arranging numerous entertainments and other plans looking to the raising of a sufficient amount of money to purchase the monument.

The Anarchists' Monument.

TRENTON, N. J., July 25.—Vice Chancellor Van Fleet yesterday filed his decision in the case of the Cigarmakers' International Union against John K. Williams, a non-union manufacturer of Newark. The complainants brought the case in behalf of the Cigarmakers' International Union of America to protect the trade-mark adopted by them. This trademark consists of a label which identifies the articles of cigar employment members of the association is authorized to place on a box containing cigars made by a member of the association and certifies that the cigars were made by a first-class workman member of the Cigarmakers' International Union.

The use of this label, it is claimed, largely assists in the sale of cigars, and this makes the exclusive right to use the label very valuable.

The complainants further contend that the defendant had sold a number of boxes of cigars made by members of the association.

The complainants asked for a decree restraining the defendant from using their trademark.

The defendant denied that he had sold any boxes of cigars made by members of the association.

The assassin is a young man named Lewis Simms, and his victim is Tom Owens, aged 24 years. They were friends and were cropping together. A few days since they started a game of cards. This morning at 3 o'clock Simms crept into Owens' bed-room, where he lay asleep beside a man named Webb, and placing a smaller Colt revolver under the bed, drew it, blew his brains all over the bed. Simms then jumped out of the window and made good his escape into the territory. The assassin is well known to the officials here at a bad case. They are in close pursuit of the fugitive.

## THE TRUNK LINE MEETING.

The Ontario Falls Out of the Association—Reduced Rates.

NEW YORK, July 25.—The Times says: The Trunk Line General Passenger Agents met in regular weekly session yesterday in the office of the association, 246 Broadway. It was understood before the meeting was called that some interesting developments would take place, and that the Erie, Ontario and West Shore roads had serious complaints to make. The Erie and West Shore failed to make their grievances known. Mr. Pierson, Passenger Commissioner, said that even the Ontario did not make "any serious complaint, but others who are placed in a position to know perfectly well whatever goes on in the Trunk Line Association." Dr. A. J. Adams, General Passenger Agent of the New York, Ontario & Western road, gave official notice that, "insomuch as a large proportion of the business done by the Central roads is being secured by the Delaware, Lackawanna & Western road, the Ontario is not getting the percentage of the business it is justly entitled to. It would be commencing to day to place its own agents in independent lines to insure its own proportion of that business." The requisite thirty days' notice was also given to the Trunk Line Commission of the Central with the New York, Ontario & Western road from the joint first and second-class ticket office at No. 1 Broadway. This unexpected move on the part of the New York, Ontario & Western almost came as a surprise to the association. There was a long and heated discussion took place. The Ontario representative refused to yield a single point, and that road is now looked upon as the most obstinate in the association. There has been no passenger business is concerned.

Yesterday was probably the most disastrous of the season in the war of freight rates. The action of the Chicago & Alton in making its rates \$2.25 per ton, and the like of dry goods and cotton piece goods respectively from New York to Missouri River points via all rail, created a great deal of comment and alarm. The Chicago & Alton's new rates of dry goods of \$1.15 was being made. The Burlington then dropped its rate on that commodity to \$1.15, and was followed before evening by the St. Louis Dispatch which dropped to \$1.12. Tariff rates have been shaved off all classes of freight rates, but only those commodity rates have been made generally known. The Chicago & Alton officials say that the decrease in rates may not be made and that if they do not get their share of the freight business from now on, it will not be because they have not used every power at their disposal.

What is perhaps even more decided evidence of a prolongation in the rate war, is the fact that yesterday tariff rates to Salt Lake and other common Utah roads declined by all railroads. The formerly stand from Missouri River points on first class, \$2.25; second, \$2.; third, \$1.75; fourth, \$1.50; fifth, \$1.30; sixth, \$1.20; A, \$1.15; B, \$1.12; C, \$1.05; D, \$1.00. These rates were suddenly and without warning reduced yesterday as follows: First class, \$2.05; second, \$1.80; third, \$1.55; fourth, \$1.30; fifth, \$1.15; sixth, \$1.05; seventh, B, \$0.90 cents; C, \$0.80 cents; D, \$0.70 cents. This is the second during the present freight rate war that rates have been affected further west than the Missouri River, except to Colorado points, but it is evident that the reduction in Utah rates is made in direct connection with the rates of cutting lines to Missouri River points from this city and other points. It is also a foretaste of a reduction in transcontinental rates to California and Oregon points. Besides these two heavy and somewhat surprising reductions, another drop was made yesterday in rail rates between St. Louis and the great and other south western Missouri River points from New York from 85 cents on dry goods to 77 cents, though it is not known that 80 cents was the original right price. The estimate on this commodity is 90 cents. There has been no apparent effort thus far on the part of any line to restore rates except to Colorado points.

## A PECULIAR ACCIDENT.

It Causes a Blockade of Short Duration on Tenth and Pine To-Day.

A very peculiar accident occurred this morning about 11 o'clock at the intersection of Tenth and Pine streets. T. W. Cavanaugh, Jr., the driver of wagon No. 157 of the Adams Express Co., was jogging his animal along at a moderate pace, and as the horse was about to cross the street ran the shoe on his right foreleg caught between the track and the cover of a "man-hole," and the animal was thrown to the ground with great violence. A crowd gathered around the horse's foot, and an attempt was made to release the horse's foot, but the shoe was held so tightly that a pitchfork had to be used to dislodge it. The accident attracted a large crowd and caused a blockade for a while.
